All woven carpets manufactured by Bloomsburg Carpet are certified for indoor air quality having achieved the highest level of certification for carpet products.

Using natural and rapidly renewal components throughout the weaving process contributes to the health of the environment.

## Bloomsburg Carpet Bloomsburg, Pennsylvania

The town of Bloomsburg has a unique heritage related to woven carpets in the United States. Bloomsburg is the oldest, continuous manufacturing center of woven carpets in America, with an unbroken manufacturing heritage of over 150 years.

Known for woven carpet constructions and designs, Bloomsburg Carpet's archive of historic carpet patterns complements their company's commitment to historic preservation. Bloomsburg Carpet's preservation goal is straightforward: manufacture quality historically appropriate carpets for the preservation of our nation's architectural heritage.

HISTORIC PRESERVATION

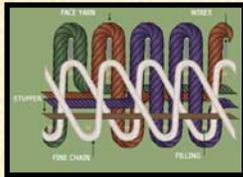

TUVA

*"Carpet at its finest and crafted with pride  
by American textile workers"*

## Wilton Carpet Weaving

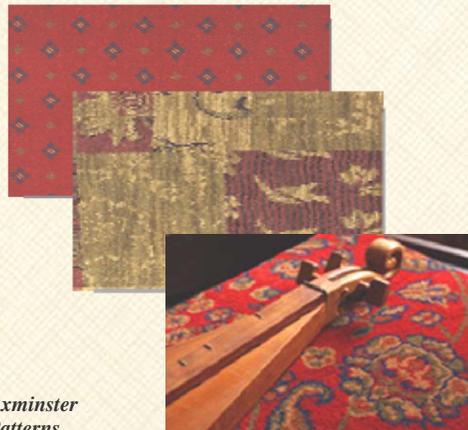

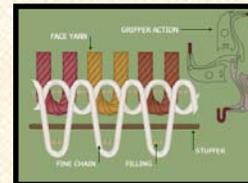

Wilton carpets are formed by inserting wires in the pile warps of the carpet. After the extraction of the wires, the pile is looped or cut per the design specification of the carpet. Because the yarn is buried on the back and only lifted when a specific color is needed, it gives the Wilton product more body, resilience, and greater quality.

Patterns

## Axminster Carpet Weaving

Gripper-Jacquard Axminster looms provide the greatest variety of color (8 to 12 colors), giving the Axminster tremendous color and pattern versatility ideally suited for the replication of historic carpet patterns.
