woven in the USA

# AUTHENTIC AMERICAN CRAFTSMANSHIP

Bloomsburg Carpet Industries was founded in 1976 in Central Pennsylvania by Raymond P. Habib with twelve experienced locals dedicated to maintaining the craft of sustainable carpet weaving. From a team of 13 to now 150+, many of which are 2nd and 3rd generation personnel, Bloomsburg Carpet continues as a family business with the leadership of Raymond's son Thomas Habib.

With a domestically located plant in Bloomsburg, Pennsylvania and highly trained sales team spanning the nation, Bloomsburg takes pride in the ability to offer superior service to all clients in the residential, commercial and hospitality markets. All products are made with the highest grade materials and unmatched attention to detail. Stock carpet lines are able to be shipped anywhere in the continental U.S. in 3-5 business days.

Dedicated to genuine American manufacturing, all Bloomsburg Carpet textiles are crafted in the USA. Bloomsburg's new, state-of-the-art equipment weaves highly customized, quality carpet with speed and efficiency in a modernized, solar-powered mill in the heart of Central Pennsylvania. As the only mill with Axminster, Velvet, Wilton and Loc-Weave looms under one roof, and the only remaining Axminster mill in the U.S., Bloomsburg's offering is truly unique.
